

# SonicWALL Email Security for the Enterprise

EMAIL SECURITY

## High Performance and Easy-to-Use E-mail Security

- **Inbound and outbound e-mail threat management**
- **E-mail policy management**
- **Regulatory compliance framework**
- **Award-winning anti-spam**
- **Corporate phishing protection**
- **Time Zero Virus Technology**
- **DHA, DoS and zombie attack protection**
- **End-user spam management**
- **Seamless LDAP integration**
- **Robust reporting**
- **High performance redundant deployments**
- **Rapid Installation and ease-of-management**

The face of e-mail threats has evolved dramatically in recent years. Previously, organizations' primary concerns were the high volume and destructive nature of spam and virus attacks. The increased sophistication and complexity of inbound e-mail threats and the emergence of regulatory compliance laws demand increased protection of e-mail and strict management of confidential information. Distributed point-solutions can no longer withstand the increased burden of e-mail security requirements. Organizations need a powerful, integrated, yet easy-to-use solution that can effectively prevent bi-directional e-mail threats.

SonicWALL Email Security is a self-running, self-updating solution, delivering powerful protection against spam, virus and phishing attacks in addition to preventing confidential information leaks and violations of regulatory compliance laws such as HIPAA, GLBA and SOX. SonicWALL Email Security solutions provide powerful protection for the enterprise without the complexity.

### Features and Benefits

**Inbound and outbound e-mail threat management** capabilities bi-directionally monitor content passing through the SMTP gateway. Inbound e-mail threats like spam, viruses and phishing attacks can be stopped before they invade the network while outbound e-mail content can be carefully managed, preventing confidential information leaks.

**E-mail policy management** enables IT to enforce organizational policies such as stopping the dissemination of inappropriate content, protecting confidential information, adding disclaimers or blocking executables.

**Regulatory compliance framework** helps organizations become compliant by automating the requirements set forth by laws such as HIPAA, SOX and GLBA. SonicWALL Email Security intelligently identifies e-mail that violates compliance policies, monitors and reports the problem uses policy-based routing to send mail to archiving and encryption technologies.\*

**Award-winning anti-spam** engine coupled with end-to-end attack monitoring ensures the most effective and current protection from spam attacks.

**Corporate phishing protection** ensures that organizations are protected from identity theft. SonicWALL delivers the only solution that uniquely identifies phishing e-mails and enables administrators to handle these messages independently from spam e-mails.

**Time Zero Virus Technology** protects customers from the time a virus outbreak occurs until the time a signature update is available. SonicWALL provides additional layers of protection by partnering with McAfee™ and Kaspersky Lab™ for signature updates.\*

### DHA, DoS and zombie attack\* protection

combined with SonicWALL's anti-spam, anti-phishing and anti-virus\* capabilities delivers a robust solution for stopping all e-mail threats. With an integrated LDAP/Exchange Accelerator, the security and performance of e-mail systems are never compromised.

**End-user spam management** allows easy delegation of spam management to end users, reducing false positives and lessening the load on IT.

**Seamless LDAP integration** ensures that SonicWALL Email Security solutions automatically synchronize with directories for automatic management of e-mail addresses and accounts. Additionally, policies, users and groups can be managed based on existing LDAP information.

**Robust reporting** provides easily customizable, system-wide and granular reporting, including information on attack types, solution effectiveness and system performance.

**High performance redundant deployments** are easily enabled. SonicWALL's unique preemptive scanning MTA is 40—290% faster than competing products and can be deployed in multiple distributed remote analyzers and centralized management through a Web-based control center.

**Rapid Installation and ease-of-management** drastically reduces the burden on IT departments to implement and manage a comprehensive e-mail security solution.

## SonicWALL and E-mail Compliance

All enterprise organizations are faced with the challenge of meeting e-mail compliance requirements, whether regulatory compliance from government legislation, such as HIPAA, GLBA or SOX; industry standards; or corporate compliance, such as a preventing offensive e-mails or protecting intellectual property. SonicWALL Email Security identifies, monitors and applies policy to all e-mail violations, ensuring the highest level of compliance possible.

SonicWALL Email Security easily enables e-mail compliance by:

- Preventing violations of compliance laws
- Stopping leaks in confidential information
- Protecting private information
- Enforcing corporate acceptable e-mail usage policies

Powerful and

easy-to-use

e-mail threat

protection

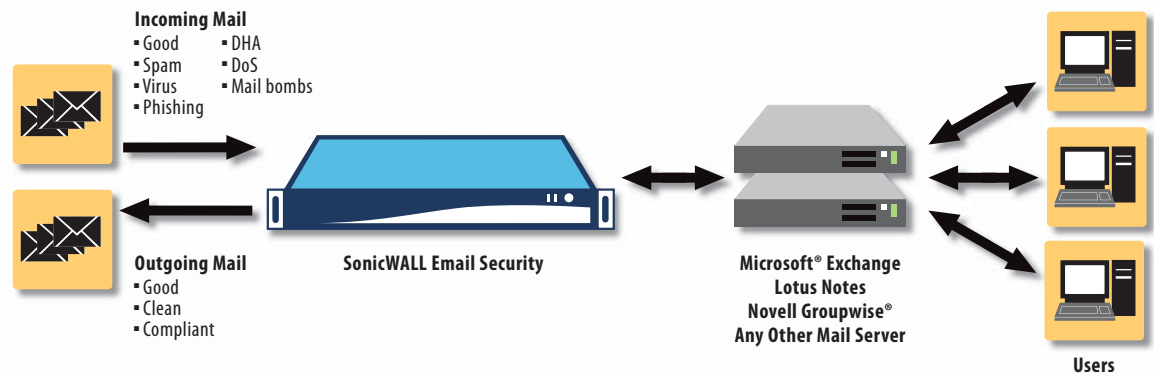

### Appliance and Software Solutions

SonicWALL Email Security 6000 and 8000 Series appliances are easy-to-install, hardened SonicWALL OS-based solutions. SonicWALL Email Security Software - Enterprise is ideal for organizations that standardize on specific hardware, wish to use existing monitoring and backup systems, or just want the ultimate in deployment flexibility

### Flexible Deployment Options

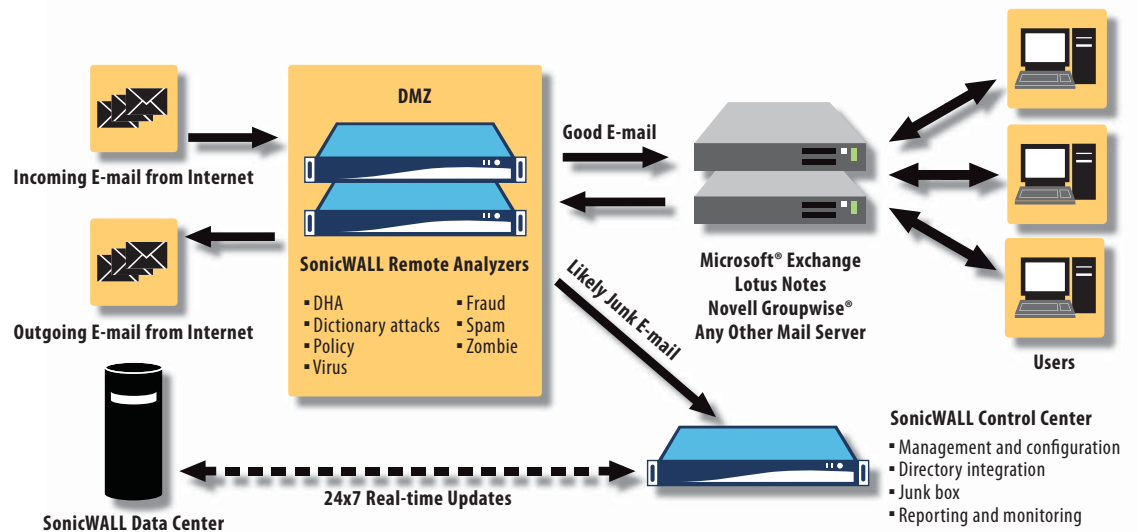

#### All-in-One Configuration

The easiest deployment is an all-in-one configuration where filtering and management takes place on the same server.

#### High Availability Deployment

For load balancing and redundancy, split network enables companies to filter at the network perimeter while providing centralized control.

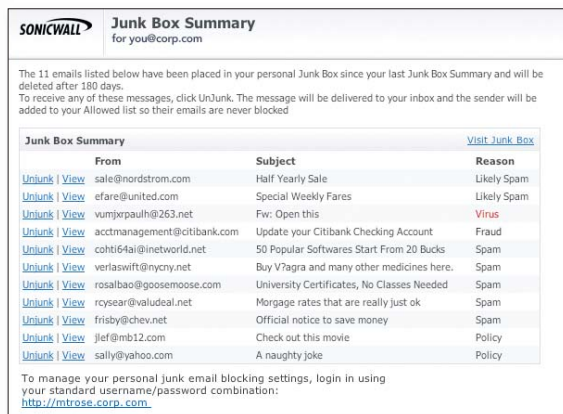

## The SonicWALL Difference

**Best Protection:** SonicWALL Email Security provides the highest level of protection from both inbound and outbound e-mail threats by leveraging a unique end-to-end e-mail attack monitoring system.

- **Anti-spam**
- **Anti-phishing**
- **Anti-virus\***
- **DHA and DoS Protection**
- **Internal Zombie Detection\***
- **Time Zero Virus Protection\***
- **Policy Management**
- **Regulatory Compliance Framework\***
- **Blended Threats**

**Effortless Control:** SonicWALL ensures simple configuration, easy customization and automated maintenance, all through an easy-to-use, Web-based administrative interface.

- Quick configuration in less than an hour
- Auto-update of all data and software
- LDAP integration for authentication and user management
- Streamlined LDAP-based group and end-user management and delegation of administration
- Personalized end-user quarantine and settings
- Easy auditing of any e-mail that has been routed through the systems
- Detailed reporting including information on attack types, solution effectiveness and system performance

Junk Box Summary

Reports and Monitoring

**High Performance:** Using its unique pre-emptive scanning Mail Transfer Agent (MTA), SonicWALL Email Security offers breakthrough message analysis rates. With SonicWALL Email Security, fewer machines are required to process the e-mail load, resulting in reduced management complexity and lower costs.

## Licensing Overview

### SonicWALL Email Security (appliance or software)

- Message Transfer Agent (MTA)
- Directory Harvest Attack/Denial of Service Protection
- Web-based management
- Policy Management/E-mail Content Filtering
- Reporting and Monitoring
- LDAP Synchronization

### Email Protection Subscription with Dynamic Support (8x5 or 24x7) – Required

- Anti-spam (1 year)
- 8x5 or 24x7 support (1 year)
- Anti-phishing (1 year)
- RMA (Appliance replacement)
- Software/Firmware Updates (1 year)

### Compliance Subscription

- Dictionaries (Functionality)
- Approval Boxes
- Attachment Scanning
- Record ID Matching
- Encryption Reporting
- E-mail Archiving
- Predefined Policies
- Compliance Reports

### Anti-Virus Subscription (Kaspersky Lab and /or McAfee with SonicWALL Time Zero Anti-Virus)

- Kaspersky Anti-virus
- SonicWALL Time Zero Anti-Virus
- McAfee Anti-virus
- Zombie Detection

\* Additional subscription service required.
