

SonicWALL TotalSecure

NETWORK SECURITY

Complete Network Security Solutions with Single-package Convenience

- **Complete network security solution**
- **Dynamic updates**
- **Content management**
- **Content filtering**
- **Affordable solution**

SonicWALL® TotalSecure™ provides complete network security against threats such as viruses, spyware, worms and Trojans. Delivering comprehensive protection in an easy-to-use, affordable solution, TotalSecure is constantly updated with signatures that protect your network from the latest threats. The TotalSecure bundle includes a powerful hardware firewall, a one-year subscription to Gateway Anti-Virus, Anti-Spyware and Intrusion Prevention Service and Content Filtering Service; firmware updates and 8x5 support, for all-in-one network protection.

SonicWALL TotalSecure supports dynamic security services that provide your network with complete protection. With integrated support for Gateway Anti-Virus, Anti-Spyware, Intrusion Prevention and Content Filtering, TotalSecure intelligently enforces and updates each of these services as new threats are identified.

All of these services are enabled via a powerful firewall frequently referred to as a unified threat management appliance. We offer multiple versions of firewalls with wired and wireless options to meet the needs of your organization.

Features and Benefits

Confidence in knowing you are buying a **complete network security solution** providing comprehensive protection from threats such as viruses, spyware, worms, Trojans, adware, keyloggers, malicious mobile code (MMC) and other dangerous applications.

Dynamic updates provide assurance in knowing that threat protection is updated continually as new threats are identified.

Content management decreases costs due to the lower bandwidth required when preventing recreational file-sharing, multimedia streaming and downloading from peer-to-peer applications.

Content filtering decreases liability concerns by providing the option to filter pornography and other forms of objectionable or even illegal online content.

Affordable solution that is simple to purchase and easy to implement.

TotalSecure 10

For small offices with up to 10 employees. Also available in wireless.

TotalSecure 25

For medium offices with up to 25 employees. Also available in wireless.

TotalSecure 25 Switch
